## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-3, drawn to a speech processing circuit, classified in class 381, subclass 317.
  - II. Claims 4-6, drawn to a perceptual speech processor, classified in class 704, subclass 226.
  - III. Claims 7-11, drawn to a method for recognizing a Fourier spectrum speech input signal, classified in class 704, subclass 206.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I, Group II and Group II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions a speech processing circuit, a perceptual speech processor and a method for recognizing a Fourier spectrum speech input signal.
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and also not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 2654

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Mr. James D. Jacobs on November 3, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
